Forensic Science International, 42 (1989) 291–293
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 42 (1989)

Abbreviated injury scale, deliberate violence, wounds and injuries, emergency wards, 165
Admissibility, scientific evidence, general acceptance, *Frye* rule, 15
Adolescents, graphic maturity, bubble writing, imitative writing, questioned documents, handwriting, 239
Alveolar lavage, asphyxia, pulmonary surfactant, hypoxia, lipids, 215
Amphetamine, methamphetamine, synthesis, clandestine laboratories, 183
Asphyxia, pulmonary surfactant, hypoxia, lipids, alveolar lavage, 215
Asthma, sudden death, pressurised bronchodilating aerosol, beta-stimulating drug, 145

Ba fragment, factor B, BF F subtypes, genetic polymorphism, major histocompatibility complex, 279
Beta-stimulating drug, sudden death, asthma, pressurised bronchodilating aerosol, 145
BF F subtypes, factor B, Ba fragment, genetic polymorphism, major histocompatibility complex, 279
Bloodstains, pregnancy, progesterone, luteinizing hormone, 61
Blood alcohol concentration, medicolegal autopsy, non-natural death, sudden natural death, 95
Blood gas, toxicology, carbon monoxide, cyanide, combustion products, fire victim, 33
Blunt chest injury, non-penetrating cardiac injury, patterned injury, pulmonary injury, 125
Bony pelvis, personal identification, radiography, lambdoid suture, sella turcica, lumbar spine, trabecular pattern, 221
Bubble writing, graphic maturity, imitative writing, questioned documents, adolescents, handwriting, 239

Canine, Mandibular Canine Index, sex, identity, odontology, mandibular canine, 249
Carbamate insecticide, poisoning, methomyl, gas chromatography-mass spectrometry, 263
Carbon monoxide, toxicology, cyanide, blood gas, combustion products, fire victim, 33
Clandestine laboratories, amphetamine, methamphetamine, synthesis, 183
Colorimetric method, diquat, paraquat, reductants, 231
Combustion products, toxicology, carbon monoxide, cyanide, blood gas, fire victim, 33
Cot death, sudden infant death, lung inflammation in infants, 85
Cyanide, toxicology, carbon monoxide, blood gas, combustion products, fire victim, 33

3-D computer graphics, facial reconstruction, identification, 69
Deliberate violence, pattern of violence, victims of violence, 151
Deliberate violence, wounds and injuries, emergency wards, abbreviated injury scale, 165
DIA 3 phenotyping, human serum, ultrathin-layer polyacrylamide gel, isoelectric focusing, 131
Diquat, paraquat, colorimetric method, reductants, 231
Discharge residues, firearms, dispersion, Maxwellian model, 271
Dispersion, firearms, discharge residues, Maxwellian model, 271
Document examination, handwriting, opinion, investigations, 1

ELISA, 19-OH PG $F_1\alpha/F_2\alpha$ specific test, semen casework, 103
Emergency wards, deliberate violence, wounds and injuries, abbreviated injury scale, 165

Facial reconstruction, 3-D computer graphics, identification, 69

Factor B, BF F subtypes, Ba fragment, genetic polymorphism, major histocompatibility complex, 279
Firearms, discharge residues, dispersion, Maxwellian model, 271
Fire victim, toxicology, carbon monoxide, cyanide, blood gas, combustion products, 33
Forensic ballistics, pellet distribution, Gaussian model, 51
Frye rule, scientific evidence, admissibility, general acceptance, 15

Gas chromatography-mass spectrometry, poisoning, carbamate insecticide, methomyl, 263
Gaussian model, forensic ballistics, pellet distribution, 51
General acceptance, scientific evidence, admissibility, *Frye* rule, 15
Genetic polymorphism, factor B, BF F subtypes, Ba fragment, major histocompatibility complex, 279
Graphic maturity, bubble writing, imitative writing, questioned documents, adolescents, handwriting, 239

Handwriting, document examination, opinion, investigations, 1
Handwriting, graphic maturity, bubble writing, imitative writing, questioned documents, adolescents, 239
Human serum, DIA 3 phenotyping, ultrathin-layer polyacrylamide gel, isoelectric focusing, 131
Hypoxia, asphyxia, pulmonary surfactant, lipids, alveolar lavage, 215

Identification, facial reconstruction, 3-D computer graphics, 69
Identity, Mandibular Canine Index, sex, odontology, canine, mandibular canine, 249
Imitative writing, graphic maturity, bubble writing, questioned documents, adolescents, handwriting, 239
Injuries, traumatic deaths, medico-legal autopsy, 135
Ink, stamp pad ink, thin-layer chromatography, questioned documents, 255
Investigations, document examination, handwriting, opinion, 1
Isoelectric focusing, DIA 3 phenotyping, human serum, ultrathin-layer polyacrylamide gel, 131
Isoelectric focusing, red cell phosphoglucomutase, red cell Esterase D, separators, 43

Lambdoid suture, personal identification, radiography, sella turcica, lumbar spine, bony pelvis, trabecular pattern, 221
Lipids, asphyxia, pulmonary surfactant, hypoxia, alveolar lavage, 215
Lumbar spine, personal identification, radiography, lambdoid suture, sella turcica, bony pelvis, trabecular pattern, 221
Lung inflammation in infants, cot death, sudden infant death, 85
Luteinizing hormone, bloodstains, pregnancy, progesterone, 61

Major histocompatibility complex, factor B, BF F subtypes, Ba fragment, genetic polymorphism, 279
Mandibular canine, Mandibular Canine Index, sex, identity, odontology, canine, 249
Mandibular Canine Index, sex, identity, odontology, canine, mandibular canine, 249
Maxwellian model, firearms, discharge residues, dispersion, 271
Medico-legal autopsy, injuries, traumatic deaths, 135
Medicolegal autopsy, blood alcohol concentration, non-natural death, sudden natural death, 95
Methamphetamine, amphetamine, synthesis, clandestine laboratories, 183
Methomyl, poisoning, carbamate insecticide, gas chromatography-mass spectrometry, 263

Non-natural death, blood alcohol concentration, medicolegal autopsy, sudden natural death, 95
Non-penetrating cardiac injury, blunt chest injury, patterned injury, pulmonary injury, 125

Odontology, Mandibular Canine Index, sex, identity, canine, mandibular canine, 249
19-OH PG $F_1\alpha/F_2\alpha$, specific test, ELISA, semen casework, 103
Opinion, document examination, handwriting, investigations, 1

Paraquat, diquat, colorimetric method, reductants, 231

Patterned injury, blunt chest injury, non-penetrating cardiac injury, pulmonary injury, 125
Pattern of violence, deliberate violence, victims of violence, 151
Pellet distribution, forensic ballistics, Gaussian model, 51
Personal identification, radiography, lambdoid suture, sella turcica, lumbar spine, bony pelvis, trabecular pattern, 221
Poisoning, carbamate insecticide, methomyl, gas chromatography-mass spectrometry, 263
Postmortem interval, vitreous potassium, time of death, 201
Pregnancy, bloodstains, progesterone, luteinizing hormone, 61
Pressurised bronchodilating aerosol, sudden death, asthma, beta-stimulating drug, 145
Progesterone, bloodstains, pregnancy, luteinizing hormone, 61
Pulmonary injury, blunt chest injury, non-penetrating cardiac injury, patterned injury, 125
Pulmonary surfactant, asphyxia, hypoxia, lipids, alveolar lavage, 215

Questioned documents, graphic maturity, bubble writing, imitative writing, adolescents, handwriting, 239
Questioned documents, ink, stamp pad ink, thin-layer chromatography, 255

Radiography, personal identification, lamboid suture, sella turcica, lumbar spine, bony pelvis, trabecular pattern, 221
Reductants, diquat, paraquat, colorimetric method, 231
Red cell Esterase D, red cell phosphoglucomutase, isoelectric focusing, separators, 43
Red cell phosphoglucomutase, red cell Esterase D, isoelectric focusing, separators, 43

Scientific evidence, admissibility, general acceptance, *Frye* rule, 15
Sella turcica, personal identification, radiography, lambdoid suture, lumbar spine, bony pelvis, trabecular pattern, 221
Semen casework, 19-OH PG $F_1\alpha/F_2\alpha$, specific test, ELISA, 103
Separators, red cell phosphoglucomutase, red cell Esterase D, isoelectric focusing, 43
Sex, Mandibular Canine Index, identity, odontology, canine, mandibular canine, 249
Specific test, 19-OH PG $F_1\alpha/F_2\alpha$, ELISA, semen casework, 103
Stamp pad ink, ink, thin-layer chromatography, questioned documents, 255
Sudden death, asthma, pressurised bronchodilating aerosol, beta-stimulating drug, 145
Sudden infant death, cot death, lung inflammation in infants, 85
Sudden natural death, blood alcohol concentration, medicolegal autopsy, non-natural death, 95
Synthesis, amphetamine, methamphetamine, clandestine laboratories, 183

Thin-layer chromatography, ink, stamp pad ink, questioned documents, 255
Time of death, vitreous potassium, postmortem interval, 201
Toxicology, carbon monoxide, cyanide, blood gas, combustion products, fire victim, 33
Trabecular pattern, personal identification, radiography, lambdoid suture, sella turcica, lumbar spine, bony pelvis, 221
Traumatic deaths, injuries, medico-legal autopsy, 135

Ultrathin-layer polyacrylamide gel, DIA 3 phenotyping, human serum, isoelectric focusing, 131

Victims of violence, deliberate violence, pattern of violence, 151
Vitreous potassium, postmortem interval, time of death, 201

Wounds and injuries, deliberate violence, emergency wards, abbreviated injury scale, 165
